Natural Lambswool Collection

Using a subtle neutral palette of camel, slate grey and off-white yarns, our in-house creative team have crafted a versatile collection of natural home accessories all in supremely soft Merino Lambswool. A combination of Scandinavian and British design elements offer up a unique take on this classic colour group, with the aim to tie in to a broad range of interior styles.

Shetland:
140 × 185cm (W×L)
A re-creation of a design found in one of our century old pattern archives, Milan became an immediate Bronte favourite upon its introduction to the interiors range in 2018. This year we’ve added six new shades in this intricate reversible design; perfect to display either as a full set or within their own individual colour stories.
Legacy Collection

The unique colours for Bronte by Moon products are created by blending between two and seven different dyed wools.

With designs deriving from the Moon furnishing fabric collection of the same name, our Legacy throws & cushions are fresh yet classically country plaids and windowpanes, crafted in neutrally grounded colours of Eau De Nil, Mustard and Heather.

These fine wool throws have all been inspired by the places in the National Trust’s care; stately designs in a rich colour palette. Woven in Yorkshire to the highest standards at our historic mill, this licensed collection represents a unique collaboration between two quintessentially British brands. With special product branding and a donation made to the Trust charity, we are proud to support the National Trust.
Based on the 2018 Pantone Colour of the Year Ultra-Violet, this range of Lambswool and Shetland quality throws marries a staple colour of the Bronte range with the latest trends & modernity.
Eucalyptus
Colours by Bronte

The classic Herringbone pattern is a guaranteed best seller in our range season after season. We’ve created a ten strong selection of trend-led colours for 2019, perfect both to tie in with our latest launches or as a simple Scandi-inspired addition on its own.
Generations of skill and expertise go into each and every one of our products.
Jasmine, after passing her apprenticeship 6 months early, carries out physical and chemical testing on all yarns we produce. Our internal Quality Control (QC) team carries out a wide range of testing, up-keeping our own high standards while maintaining industry recommendations and delivering results to our customers.

Craig Adamson
Blending Warehouse Operative | 5 Years

The secret to creating rich colour is in the blend. With Craig’s trained eye, he picks out up to seven different coloured wools to go into the recipe for each yarn, creating the finished colour. This is what gives Tweeds, Heathers and Plaids their uniquely rich texture. For example, if a check design includes 5 different colours, and each colour has 7 different shades in the yarn, the eye is picking up 35 different colours in the finished pattern.

We craft our beautiful ranges of throws, cushions and fashion accessories from the historic Moon mill in Guiseley, Yorkshire. Established in 1837 and with over 180 years of proud British manufacturing & design heritage already to our name, we are now one of Great Britain's last remaining vertical woollen mills.

The term ‘vertical’ is a throwback to the Victorian era when mills would rise several stories, with each floor containing separate parts of the manufacturing process. Today it remains a unique confirmation of our authenticity; we control every stage of production from raw wool to finished product including Dyeing, Blending, Carding, Spinning, Warping, Weaving, and Finishing.

We create our collections with a balance between innovative design & traditional craft, maintaining our position at the forefront of commercial trends with consistent high quality. Our passion for distinction remains as strong now as ever, carrying the message of what it truly means to be ‘Made in Great Britain’.
Country Collection

Reminiscent of the sprawling Yorkshire countryside so close to our mill, our new Country Collection takes its lead from the popular Moon Moorland II fabric range, with the three top selling Glen Coe colourways of Aqua, Heather and Mustard being lovingly re-crafted as matching throws and cushions.

Our Merino Lambswool products are renowned for its supremely soft handle.
